PATENT ELASTIC FIRE & WATER-PROOF CEMENT ROOFING.

THE undersigned are prepared to introduce into use in Tennessee W. F. CHILDS & CO.'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of architects, Builders, Railroad Com-panies, and the public to examine its superiority over other ARCHITECTS AND BUILDERS should not fall to

ARCHITECTS AND BUILDERS should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will en-gage to put our flooding on over ordinary good heathing, old shingles, tar and gravel, tin, sinc, copper, or iron roofs -it making no difference how steep or flat they may be-for seven dollars per one hundred square feet; it bring far chesper than any Roul of the old style, and we are sure it

will, ive better satisfaction.

It will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and gravel roofs or around chimneys, scuttles, dormar windows, and gutters, where the chimneys, scattles, dormar windows, and gutters, where the tin is rust d through. This Cement can be put on to last as long as some, and form a perfect adhesion to any object to which it is applied. Tin Boofa can be painted over (and warranted not to less) at two dellars and fifty cents per hundred square feet, which is cheaper and much better than paint. This Boofang will be found to be the best thoughfor covering large Roofs where they are exposed to fir—such as Steam Mills, Saw Mills, Factories, Railroad Care Bridges. Factories of the last their contracts the same paint. Cars, Bridges. Depots. Station Houses, Steamiost Decks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any light sub-tance will born out without igniting. Insurance Offices at Cincinnati, and other places where Childs & Co.'s Cement has been used, insure Buildings with Roofs oovered with this Cement, at the same rates as for those covered with Iron, Copper or Tin.
The Cewent will be furnished to those at a distance

with directions for using orders sent to the undersigned, through the Post-office, will be promptly attended to

OFFICE BUCKEYE STATE INSURANCE COMPANY, CINCINNATI, Dec. 16, 1806. To all whom it may concern This is to certify that I have examined a secumens and Roofs of W. E. Childs A Co's "Elastic Fire and Wa er-Proof sement Roofing," and be lieve it to be eminently superior to any other kind of Roofing in use. I was an eye withe sof a severe trial of one of these Books from a large volume of flame from an adjoining building, which struck directly upon the roof and cornice for nearly half an hoar. It stood the trial beyond all ex-pectation, and saves the building. T. M. HASKELL, President Buckeye State Insurance Co.

Having made considerable inquiry as to the merits of the by Childs & Co., I find it to be highly recommended in this city by many everilent judges; that it is meeting with very ready and general introduction; that its superiority over the tar composition Roofing is decided and freely admitted; and finally, I except to adopt it for my next roof, which will be next summer—having intended to use tin, but will try the virtues of the "Patent blastic Roofing" as a substitute. CHOICE FARM LANDS FOR SALE. THE ILLINOIS CENTRAL R. R. COMPANY IS NOW PERPARED TO SELL ABOUT

1,500,000 Acres of IN TRACTS OF 40 ACRES & UPWASDS, ON LONG CREDITS AND AT LOW RATES OF INTEREST.

THESE lands were granted by the Government to aid in the construction of this fload, and are among the ichest and most fertile in the world. They extend from North-east and North-west, through the middle of the State, to the extreme South, and include every variety of climate and productions found between those parallels of latitude. The Northern portion is chiefly prairie, inter-spersed with fine groves, and in the middle and Youthern sections timber predominates, alternating with beautiful prairies and openings The climate is more healthy, mild and equable than any other part of the country—the air is pure and bracing, while living streams and springs of excellent water abound.

Bluminous Coal is extensively mined, and supplies a cheap and desirable fuel, being fornished at many points at \$2 to \$4 per ton—and wood can be had at the same rate

Building Stone of excellent quality also abounds, which can be produced for little more than the expense of trans-The great fertility of these lands, which are a black rich mould from two to five feet deep, and gently rollin ,—their contiguity to this Road, by which every facility is furnished for travel and fransportation, to the principal markets North, South, East, West, and the economy with which they can be cultivated, render them the most valuable investment that can be found, and present the most favorable opportunity, for persons of industrious habits and small means, to acquire a comfortable independence in a few

The Title is perfect—and when the final payments are made, Deeds are executed by the Trustees appointed by the State, and in whom the title is vested, to the purchasers, which convey to them absolute titles in Fee Simple, free and

clear of every incumberance, lien or mortgage.

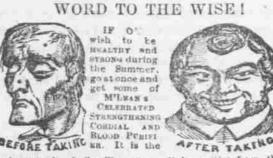

The prices are from \$5 to \$30; interest only 8 per cent.

Twenty per cent will be deducted from the credit price Those who purchase on long credit, give notes payable in 2 3, 4, 5 and 6 years after date, and are required to improve one tenth annually for five years, so as to have one half the land under cultivation, at the end of the time. Competent Surveyors will accompany those who wish to examine these Lands, free of charge, and aid them in taking selections.

The lands remaining unsold are as rich and valuable as hose which have been disposed of.

BOERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA,

DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND. FEVER AND AGUE,

STOMACH OR LIVER,

SUCH AS Indigestion, Acidity of the Stomach, Colicky
Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and bleeding Piles. In all Nervous Rheamatic, and Neuralgic Affections, it has, in numerous instances, proved highly beneficial, and in others effected a ecided cure. This is a purely vegetable compound, prepared on strict-ty scientific principles, after the manner of the evictorated Holland Professor, Borrhave. Because of its great success in most of the European States, its introduction into the United States was intended more especial y for those of our fatherland scattered here and these over the face of this fatheriand scattered here and there over the face of this mighty country. Meeting with great success among them, I now effer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been in poired by the continuous use of ardent spir to, or other forms of discipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, ratsing up the drooping spirit, and, in fact, infusing new health and vigor in the system. and vigor in the 2; stem.

NOTICE.—Whoever expects to find this a beverage will be disappointed; but so she sick, the weak and low spirited, it will prove a grateful aromatic cordial, peasensed of sin-gular remedial properties. CAUTION.

The great popularity of this delightful Aroma has induced many indications, which the public should guard against purchasing. Be not permaded to buy anything the until you have given Ecerhave's Holland bitters a fair trial. One bottle will convince you how infinitely superior it is said then indicated.
